| Trichy, India

ABOUT ME

I have completed comprehensive courses in frontend development and backend development equipping me with strong foundation in web development. I'm proud to have gained valuable development experience during my one year tenure at T4TEQ Software company, Where I have had the Opportunity to apply my skills and contribute to real-world projects.

SKILLS

HTML	React	TypeScript
CSS	Angular	PHP
JavaScript	Node	My SQL
Bootstrap	Express	JSON
JQuery	MongoDB	UI Design (Figma)

Web Development

- Collaborate with designers to translate UI/UX designs into functional components.
- Implement API integrations using axios and fetch. Designed and implemented RESTful API using Node.js and Express.
- Design and implement database schema using MongoDB and Mongoose.
- Worked with databases using MongoDB and MySQL.
- Participate in code reviews and contribute to codebase improvements.
